ICT Day — Southampton 15th April 2010

Following our successful ICT days , the National Blind Children’s Society are holding a series of regionally based ICTdays in 2010.

These days will be held in association with some of the most respected companies in the Assistive Technology field. We are delighted that the Southampton event will be held in association with **Keytools** and **Optelec**.

As well as working in ergonomic computing, **Keytools** specialises in making computers more accessible, for a wide range of users including the disabled, young children, educational users, and visitors to public institutions such as libraries and access centres.

Optelec are Based in Barendrecht, the Netherlands, they are the leading designer and manufacturer of life-changing assistive technologies for visually impaired and dyslexic people.

Please find below the details, the day will be split into two sessions, it will give the opportunity for demonstrations and some hands on use by the children and parents.

Booking is strongly recommended as spaces are limited.

National Blind Children’s Society
ICT Day in association with Keytools & Optelec
